

### Features:

1. Easy-to-reach located controls
2. Large shock mounts reduce vibration to the handle
3. Heavy-duty shock mounts reduce vibration to the upper deck
4. Wear-resistant base plate extends life, open design reduces dirt building
5. Centrally-located lifting bar allows easy transportation in and out of trenches
6. Wrap around protection cage protects the plate from accidental job-site damage
7. Heavy duty industrial throttle control

### Technical Data

Model No	CRP30	
Engine type		Honda GX160
Power kw	(hp)	4.0/5.5
Operating weight	kg(lb)	149(328)
Frequency	rpm	4000
Centrifugal force	kn	30.5
Travel Speed	cm/s(in/s)	25 (82)
Compaction Depth	cm (in)	570(6100)
Efficiency	m <sup>2</sup> /hr(ft <sup>2</sup> /hr)	570 (6100)
Plate Size	cm(in)	73x45(28x18)/73x36(28x14)
