SINCE 1979

STAUNCH Cement Plaster Spraying Machines

These machines are suitable for dry mixed cement/plaster. The aggregate in the mix has to be less than 3mm in diameter for it to be pumped. The dry mixed material can be metope, aggregate, primers, patching mix, putty, paint and similar material.

Technical Data

Model	EW N2-A	EW N5
Voltage	380v/50Hz	400V,50Hz three phase - 230V,50/60Hz single phase
Power	4 Kw	4.0kw - 400rpm
Conveying Capacity	3-20l/min	6 - 85L/min
Conveying Pressure	max. 30bar	
Conveying Distance	up to 40 m	up to 50 m
Conveying Height	30m	
Max. Material diameter	3mm	4mm
Capacity	50 L	50 L
Total Weight	180kg	365kg
Dimensions L/W/H(1.014m3)	130cm*65cm*120cm
