

STAUNCH
MACHINERY
SINCE 1979

STAUNCH Rendering Machine TUPO-7

Features:

1. Combined the advantages of TUPO - 5 & TUPO - 6 operation is more easier and more convenient
2. Render up to 500-600 m²/day, save 85% labor cost. increase productivity 15-20 times
3. Original gear rack driving system, enable output of more peaceful and stable
4. Aluminium alloy main unit and stainless steel directional pipes
5. Located by infrared ray even ray, even better verticality and flatness
6. Remote control

Technical Data

Model	TUPO-7
Dimensions (L x w x H)	1200 X 650 X 550 mm
Weight	150Kg
Electricity phase	Three/single
Power	0.7kw/380v/220v/50Hz/60Hz
Rendering thickness	5 - 30 mm
Rendering speed	Apr.55m ² /hour
Length of plastering Trowel	1200 mm
Rendering height	standard 3.5, special up to 4 m
