STAUNCH Two Post Lift ST 4.5 MP

USE RANGE OF TELESCOPIC LIFTING ARM

SPECIFICATIONS

Optional power supply 220v (1ph)/380v(3ph)
Motor power 2.2 kw

Description

1. This is a clear floor vehicle lift with 4500KG lifting capacity.
2. 110mm minimum height, 1850mm lifting height, 3705mm machine height.
3. Adjustable lowering speed.
4. Symmetrical arms design with 6mm steel plate, more stable.
5. Equipped with twin hydraulic cylinders and two 10mm thick steel cables to drive the lift and secure synchronization.
6. With high precision hidden arm lock to avoid sudden drop.
7. Elegant appearance with hidden cable and pipeline.
8. Unique V-shaped designed sliders provide a more stable operation, less vibration guaranteed.
9. The lifting machine is safe and reliable which has been passed 115% dynamic test and 150% static test.

Technical Data

Model No.	ST 4.0 2D
Feature	suit for various cars
Lifting Capacity	4500kg (9940 lb)
Lifting Height	1850mm (72.8")
Machine Height	4000mm (157.5")
Machine Width	3770mm (148.4")
Power of Motor	2.2kw
Power Supply	20V/380V 1/3 PHASE
Rise Time	50s
Drop Time	22s
